- **basic knowledge about the functioning of propulsion and working machines in agriculture, utilities and construction**
- **to maintain and repair propulsion and working machines**
- **to maintain and repair tyres**
- **to diagnose propulsion and working machines**

Practical lessons of our mechanics

# Programme of vocational-technical education (VTE)

- **AGRICULTURAL –ENTERPRENEURIAL TECHNICIAN (VTE)**
  - **FOOD-PROCESSING AND NUTRITIONAL TECHNICIAN (VTE)**
- 

# AGRICULTURAL-ENTERPRENEURIAL TECHNICIAN (VTE)

Grafting fruit trees

# The students acquire and learn:

- knowledge of food chemistry, nutrition, microbiology, analysis and food hygiene
- to work in the laboratory and control products

Cleaning peppers  
Harvesting grapes  
Basket of school products

# FOOD-PROCESSING AND NUTRITIONAL TECHNICIAN (VTE)

**Beautifully decorated fruit plate with  
bananas, grapes, watermelons, strawberries,  
apricots and pineapple**

# The students acquire and learn:

- **knowledge of food chemistry, nutrition, microbiology, analysis and hygiene of food**
- **to work in the laboratory and control products**

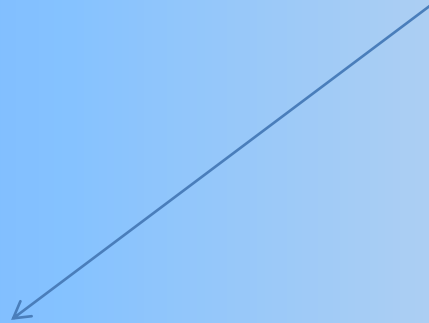

Filtration of coffee  
Cutting apples  
Filling bottles with apple juice

# TWO-YEAR PROGRAMME

*Assistant in biotechnology and care*

Products of our students

# The students learn:

- to prepare food of plant origin
- to take care of the premises
- proper communication skills

Sewing a traditional Slovene knit  
Baking pastry

# *DORMITORY*

## FOR STUDENTS

- lessons,
- leisure activities,
- cooperation with other dormitories,
- cooperation with the home for elderly people in Šentjur,
- cultural and sports activities,
- volunteering.

School dormitory

# PROJECTS

- Leonardo da Vinci** (Austria, Finland, Portugal),
